Technical Skills

Languages: Java, Python, JavaScript, Groovy, Shell Scripting, Batch File, HTML, CSS

Frameworks/Libraries: Spring Boot, React.js, Node.js, Express.js, Flask, Bootstrap, jQuery, Selenium, Jinja2

Databases: MySQL, MongoDB

Tools: Git, GitHub, Jenkins, Docker, Postman, Jira, VS Code, MySQL Workbench, Linux, Confluence, Android Studio, Logcat

Skills: Manual Testing, Automation Testing, Test Case Design, Test Planning, STLC, Agile/Scrum, Troubleshooting

Employment History

SAIC | Software Test Engineer | Oct 2023 – March 2026

- Collaborate with cross-functional teams (developers, product owners, and stakeholders) to design, test, and validate new features for USDA applications
- Design and maintain detailed test cases and test plans in Jira, improving traceability and test coverage
- Perform comprehensive manual testing across multiple application modules, identifying defects and ensuring high-quality releases
- Develop and execute automated test scripts using Selenium (Java) with Gauge framework, increasing regression testing efficiency
- Support Agile sprint cycles by participating in standups, sprint planning, and retrospectives

Green Belt Tree Care | Groundman | July 2022 - Sept. 2023

- Assist climbers and arborists with tree removal, pruning, and maintenance operations
- Operate and maintain equipment such as chainsaws, chippers, stump grinders, and hand tools
- Manage ropes, rigging, and lowering devices to safely guide tree limbs and debris
- Maintain a safe and organized job site by following all safety protocols and procedures

Les Schwab Tire Center | Brake and Alignment Technician | Jun. 2021 - Mar. 2022

- Inspect, diagnose, and repair brake and suspension systems including pads, rotors, calipers, and suspension parts.
- Perform brake and suspension replacements and resurfacing according to manufacturer specifications

Voicebox Technologies | Software Test Engineer | Aug. 2016 - Jan. 2019

- Conducted manual and automated testing for Toyota in-dash navigation systems, improving conversational UI functionality and user experience
- Developed automation scripts using Shell, Batch, and Groovy to streamline test execution and results analysis
- Logged, tracked, and prioritized bugs in Jira, contributing to improved regression testing strategies
- Served as Lead QA for a client demo chatbot product, ensuring product stability and successful delivery

Personal Projects

Great Outdoors | Shows information about National Parks and Campgrounds; built with Java, HTML, CSS, and JS | [GitHub](#)

Event Organizer | Event planning website; built with React, Node.js, MongoDB and Express | [GitHub](#)

Baby to Baby | E-commerce website for selling and buying baby products; built with Python, MySQL and Flask | [GitHub](#)

Education and Certifications

SAFe 6 Practitioner Certification - Scaled Agile Framework | March 2025

Full Stack Development Certificate - Coding Dojo | Mar. 2022 - July 2022

Coursework toward B.S. in Computer Science - DeVry University | July 2010 - Aug. 2011

A.A.S. in Specialized Technology (Automotive Management) - Wyoming Technical Institute | Sep. 2004 - Aug. 2005
